About us

Founded in 1969 by the Stocco brothers, the company has **more than 50 years** of experience in the furniture sector and in particular in the production of bathroom furniture.

In the last thirty years we have consolidated our presence in the world of designer bathroom furniture and have become an international reference point for

quality, Made in Italy and product and services innovation.

Where we are

Via Valsugana 318,
San Giorgio in Bosco (PD)
35010, Italy

We have always been located in a highly industrialized area and in particular near one of the most important industrial areas for furniture production.

- **Good access to the highway network**
- **Two airports within a radius of 50 km.**

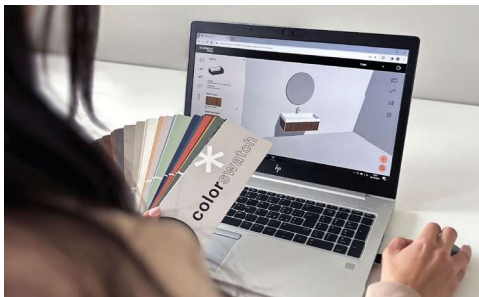

Our values and our mission

The main goal of F.lli Stocco is to maintain and improve the quality standards achieved, focusing on the continuous improvement of products and services from a sustainability perspective.

In terms of corporate governance issues, the improvement is expressed in the following points:

- Social responsibility in human resources management
- Respect and protection of the people who work and interact with F.lli Stocco in various ways.
- Respect for the environment and use of raw materials and semi-finished products that are as environmentally friendly as possible.
- Respect for suppliers and seeking strengthened partnerships that improve efficiency, the quality of the work performed and the product supplied.
- Continuous improvement of product quality and exploration of new design concepts.
- Management and improvement of the services offered to the dealer-customer and especially to its employees.

Our numbers

57 years of history

Given the company's production structure and the strength of the “**distributed factory**” concept, we can increase our productivity (without investment) by

30%

Own factory approx. **5400 mq**

Photovoltaic system,
160kW of installed power

Over 70% coverage of the company energy needs

Our Products and Services

Products

For more than thirty years Stocco has been manufacturing bathroom furniture, appreciated by customers for its exclusive design, excellent ergonomics and ease of use, and high quality standards.

These results have been achieved thanks to a continuous and consistent research and development activity, carried out by an internal team with the support of designers and external collaborators.

Over the years, Stocco has succeeded in developing innovative products that have left their mark in terms of design and quality.
